

I as a flight attendant feel it will be a noise problem in the cabin for passengers to be allowed to use their cell phones while in flight. Can you imagine 86 people in an airplane talking all at the same time. We already have to deal with the airplane noise and people talking how are we ever going to be able to deal with people who want to sleep on the airplane when someone else is talking. I ask that they please do not allow cell phone usage on airplanes for the flight crews safety and the passengers.
